

Belle Meade -

Dr. Simon Miller - was person who
sent specimens of young Citrus
mollusks to me

6-15-50

Re Paul Starcher -

Memo on P.S. found in Gilds home.
Must have been an occasion of one
of Al Slack's trips to Charleston.
Slack must have given this to
H who in turn copied it
& gave it to Sam. This probably
when Al was in Rochester.

H does not believe if matter
re BS was followed up.
This may have been given to
to H in Kyot. Al may have
gotten this sometime between
Cincinnati & Kyot.

Sam prob. told H to tell Al
to see what else was down there.

John Humphreys - also at Cashide &
Corbin, or DuPont Co. More likely
at DuPont & Slack considered him
much better source than Lockenour.

29-15 Airline Schedule

While at Proth, Ake maybe in
midwest at Kayer - H may have
planned trip to midwest

29-9

Jack Bruin, - H knew as
Joe Brodsky - a Philadelphian.
H once considered him as a
possibility for a recruiter. H
doesn't know if he ever landed
in anything on him, but prob. did.
Used to bother H for contribution to
Commie fund, doesn't recall names of funds

H knew him at Mexal under right
name. Bruin studying chess engineering.

This submitted about time Fred
was talking H. Probably typed
by Bruin

Name Bruin prob. ce party name.
As far as H knows Bruin never
died. Maybe someone else used
him. May have new stand as
Penn Univ Hosp.

Bruin was in the service. Is married.
Maybe lives in neighborhood of
Vesper Hosp.

Re Dan/Kline material -
All hookum. Many of the
ideas - Dummies, etc. - were suggested
by Fred.

Kept these papers in order to
remember the lies.

Penrod etc from Harry Ford were
Fred's ideas.

Kline was school mate of J. H. -
H. may have seen Kline once or
twice in his life.

Reports written in summer
of 1938.

Re Herbert Epstein
Not Exist.

Mrs Epstein 2400 block of
S. Pulaski St. Was good friend
of Mrs. Hall. Mr. H. had daughter
Lattie. Mother used to try to
make a match between Lattie
& H.

6-15-50

C.B. - Probably mostly true. C.B. may have been connected with Trotskyite movement, & Samuels worked a line on him. May have been to verify a residence. May have been to determine if C.B. home at certain hour.

H. did not have friends who were Trotskyites.

Epstein - pleased summer 32 ft. late spring. Absolutely fictitious. Some truth concerning Shirley Olsen. He was personally considering marrying S.O. & was to drop whole business of her, & therefore was preparing for that eventuality. Shirley did go to Atlantic City with another woman & couple. This caused H. great jealousy (as it was intended for). Mrs. G. was real charm who was friend of Mrs. G. H. had gone to school with latter. Mrs. G. & Mrs. G. were always collaborating to get Father & H. together. Mrs. G. did not approve of H. going with S.O. Mrs. G. thought S.O. too unstable person. She did not openly express these things.

Shultz Invented by H for
Stearns. Purposely printed dis-
cussing picture. Steve didn't press,
but Fred opened up whole
business. Then H wrote the
book for Fred.

Fred then pressed H for
others, & Epstein dreamed up &
invented the story about Kline.

6-16-50

Re Fuchs -

F told H in summer 7 44 that his sister in Boston was considering separating from her husband. She was having great difficulty & she was thinking of coming to N.Y. F was thinking of living with K H if she came to N.Y. & submitted this for H's approval. H said he wanted to take this up with John but never did. Later told F that he had taken this up with John & it was OK. H knew K F was attached to K H & children. Afraid some petty official would veto the idea, so H took it on himself. Since he took such strong feelings about family relationships.

No recollection of having reported Mills to her - business to John, but very well may have.

Fuchs was not given to gossip, stuck to business.

H gave open style wallet to F in Cambridge. H's dough no reimbursement. F not too happy about it. Cons *8.00

Re Greenglass -

When I mentioned about recruit,
he mentioned a G I who had been
busted from sergeant & had been
sent to the pen at Lawrenceville, Georgia.
Then said he would listen to H's
advice & not try to recruit anyone.
This was during the morning talk (as days
till afternoon.)

Re Slack
Saw him Dec 7, '41 maybe
Longchamps 34th 5th
Then went to meet Sam up on
5th Ave. Sam & Al went out of
H's sight for about 20 minutes &
half hour. H then met Al at
Press Rail to eat. Then H took
Al to Grand Central. Al went
to buy tickets & Harry waited at
info booth. Al returned & said
H about Pearl Harbor.

Introduced Al Slack by right name
to either "Simon" or some other name
that had dreamed up.

Slack had been to Charleston
to see How Stark re nylon

The North Philly meet also occurred.

H was not told by either what
was discussed between the two.
Sam later told H that he thought
Al would be more at ease if
H was present.

Re Brothman -

Connects money with both
Chemurgy & Haulpicks. \$30.00 would
be too puny. Expenses were for
add'l blue prints which Abe had
to have made.

Once caught Brothman Voigtlander
at Kleiss & Goodman in Phila. -
some point that Slack got it
for them. Late summer of '42
\$40-50. Hard to get.

Also once gave ^{over} Kumpf & Esser
six inch special rule - \$6.00.
Maybe Christmas of '45. They
were difficult to obtain in those
times. Gervile placed Abe
because H had not seen him in
some time because:

- 1 - Busy with trucks
- 2 - H had told Abe he was
trying to get legit booking for
A.B.H. but had not done so.

Sam often suggested that gifts
be given.

Never reimbursed for these gifts
as Sam & John didn't know H
was seeing Abe.

Abe might have dropped hint
to H that he needed expense
dough.

June 3rd ^{March 42} while Abe at Harvard
mixing equipment while Abe at Yale.
All was stuff Abe worked on at
Hind.

Sam interested in info of
lube oils & colloidal graphite
& Prothace told H. that Johnson
owned a colloidal graphite plant
around Houston. H. urged Abe to
get info, but Abe never did.

As far as lube oils went, Sam was
particularly interested in substitutes
for petroleum products ordinarily
used as lube oils.

3 dry runs before meeting Proth-
over period of month to 4 weeks.

New arrangements were necessary
every time.

Two of the 3 occasions, Sam
showed up instead. None of
them near Church St - H must
have been uptown Times Sq to
Columbus Circle.

Third time - Wall St area. No
one showed up.

Miscellaneous

On Day St, not far from Hudson
Leam is "Sabbell's Restaurant".
H met there once with Paul, &
quite a few times with Steve.

Broth - (Cont)

One of the other times - Sam told
H he was not to see Broth, then
later told him he was.

1st meet with Broth - drove to
Bedford - Abe did most of
talking. This Bedford maybe an
easy fill of 6th or 7th between 34th
42nd. If not Bedford, another one
arm yard.

Conners mostly to do with advance
of German Army, then Russian & so
joint in trying to minimize Russian
losses or defeats.

Broth once told H that

- 1 - Handuck had made first Jeep
- 2 - Abe had designed a turbine
motor for aircraft, while at
Gen. Abe turned this over to
Galen or Helen.

Moskic may have been present
during Abe & H. Conners. re. Koopman

This occurred in car on way
to Peekskill. Late fall 46 or Spring 47.
nice weather

Mickin

I never knew what they were talking
about.

Started with Koop's attitude towards
atomic energy, - loyalty to U.S. + what
Koop + others had accomplished.
Went on from there to Abe talk with
Koop re Dr. F. arrest, then liberalized
against the big headlines of these
knee brace props of Smith who had

1. - Been given all little house on
salary - \$4000 up to \$5400. - given
cards which entitled them to
quarters on travel all over country
+ were welcome at research stations
anywhere.

2. - Who had become the subjects
of public adulation.

3. - How these people look
down on Dr. F.

4. - Made statement that he (Abe)
was through with Koop.

Abe said he had had lunch with
Koop + said "I was never so disgusted
+ made almost sick in my whole
life. The matter of Dr. F. come up
(Mickin was at the lunch with Koop)
(... laughed in car when Dr. F. was
name mentioned) then Abe said
"I pronounced Fuchs and went to

speed is for Kong & spelled as Fink

Kosy had said: "I never thought
that a man of his culture would do
a thing like this."

V. Torrianovich business came about in following manner

1 - Early June 46. Both come in one morning all by itself & wonder to know if H⁰ had any info at all on any of synthetic vitamins were photos of the B complex. H⁰ said did know something about info of them. Abe said ok. H⁰ asked him if he knew trademark patent restriction by Merck & Hoffmann-La Roche. Abe didn't care about that. Day or two later Abe sent H⁰ & Masha to visit Chapin, an American, in his 60's and chem knowledge whatever. Masha & H⁰ met Chapin at a club. M⁰ - eq. Nothing came of this meeting. Chapin was Russian. He told what was expected. This was for Poland. Chapin just wanted to know whether the com. make them. Later Abe found Chapin was a mild man from Antwerp. thru Juba/Kushen & ^{many} ~~James~~ Hedderman, some man an American came to A.B.A. who had worked for a firm which made

fish oils. This guy had the chem. knowledge
wanted Abe to build the plants. Then
Jules Korsch on this guy or
possibly a man who used to be
chief engineer for ~~Trane~~, was one
who got Abe introduced to ~~DeLoria~~.

Abe was in great glee, & told H
they had date next day to go to
Antony, & talk to man who
was interested in building these
plants. H put up a bluff, -
H didn't want to go near Antony.

Abe said it was waste of time
going Russian way, - they went ahead
& bought stuff anyway. Abe belittled
H's work. However, next
day they went to Antony.

Spoke thruinterp. Felt
no speak English. Wanted
B₁, tyamine & B₂ proflavin,
nicotinic acid, pyridoxine
& ascorbic acid. Explicitly
anxious to avoid conflict with
any existing patent situation.

Abat H made extensive little
search & drew up route of
synthesis which avoided hitting
patent situation & made estimate
of the equipment needed & the
cost.
In begging Abe decided they should

he paid for report, but on consultation
with Needleman, dropped the idea for
fear it would jeopardize whole deal
Feldon. Left for Russia in Nov 7
46. His place taken by another man,
who told ABA very bluntly, that they
couldn't consider the proposal because
ABA had never built plants like
that before.

Feldon was expert in field
of foods. Traveled all over U.S.
liberizing 'canning equip. & other'
making medical food preparation.

On occasion of Bel-met with
Feldon at Antong, enterprise was
called out of room, & Feldon
said, I will try to continue in
my little English, which he
did very ably.

Re Steno (n.4) ^{spring 43} dictated reports in a sense
got in touch with Bloch as last
years. Bloch got this Steno thru her
brother or uncle. She was still at
Steno school & working for State
Lawn Board.

Would meet her in Newark Station or
in Penn Station says then went to
office of Chemurgy. It made it a
point to get her over as far as
Newark.

Sam didn't know about the Steno
or if he did, Sam thought it was
Bloch who got the Steno.

H. probably first met this girl in
Newark. Paid her 70.00 ^{per typewriter} per typing
out of H's pocket. May have borrowed
money from Bloch per the terms to pay
her.

H. doesn't think she was curious
about the material. She had some
sort of fear that H was out to make
her. This was far from H's mind.
May have intimated to her that
he was married.

Owed her for a week or two when
stopped using her. Maybe Bloch
eventually paid her.

Bloch knew Steno was not a Soviet
or Soviet sympathizer.

21
274
She typed my stuff Brath dictated.
H never turned it over to Sam,
Sam didn't want it.

She may have lived in Hookerwood.

Albuquerque -
Tyl or tely flock for dough. Maybe
flock sent 20 birds.

May have made the call from Chicago
& told Pl to send him the dough at
the Hilton.

Hard tel service in Palmer
believes it was in Sept trip.

H had returned to Albuquerque
from Santa Fe before money
arrived.

Sept 19 at Hilton

Sept 17 at Palmer

Probably owes flock nearly \$75.00

Stock -
H. Randall, Stock Brothers Live in
Clay N.Y.

Met Sam only once in upstate
N.Y. - theater in Buffalo.

Two other Runners. - Early in '41.
One of them near R.R. station in
Rockwater. Other in Buffalo, - near
R.R. station or maybe on street.

These were very fast meetings.

Leo C. Penn
In item 29. - may have been a
Protokyte whom he was asked to
check on him. Maybe by Black

Carl Bushman - (C.B.)
Fred asked H to check up on C.B. -
may have been a Protokyte.

Griff Paen
Griff Penn

Strike at P.S. 1939 - Feb - lasted
about 5 weeks. H refused to work
there during the strike. Afraid of what
Steve might say. He worried
about getting his job back. Rick
got real mad, & said H was
there in chemical field.

6-18

Black

H. Believes answer to Bl activities may be at Nopes. Ernie Segerman

Bl said Hopman - La Roche were best a gentleman. Also said their commercial pursuits very productive.

3- H says if he could meet Bl and personally appeal to him Believes would be of some value.

Find out people at work who Black knew well - Nopes.

Black in Trotskyites - One guy who Bl said was Trotsky premier agent in U.S. Used many aliases about Blacks eyes.

Black used to tail this guy, saw him get in a car. Got license number

Black dreamed up following story.

"Went to Trenton to Bureau of motor vehicles - said his dog had been run over by bus & him but Black had license number Trenton gave him name & address Jerry Seeman & address -
Madelaine or Oranges

George was Seimenov's name with Black.

Pretty sure Black was interested

in going info for biological warfare

Item 29.

(H believes he had letters from schools, & doesn't think he turned them over to Fred, because Fred might think of some reason to put H to rest.)

Jan 1929 - at Penn Sugar.

Morris Ruckman - Chem Engineer, PhD, from M.I.T. Young man 24-25. Ruck had hired him because he worked on Cb recovery. Morris left Penn Sugar to go into ^{city} business. Father was patent lawyer with York.

Re schooling - H had decided to continue to work for at least another year. At Cincinnati, they wanted H to take the 6 year coop course. No one, not even his father, was critical of H's credits, wanted him to start as a Freshman.

H thinks the reason for quarrel with Fred was that father was happy H had not had success at Cincinnati & prepared to see H wait a year for following reasons:

1- The Fred asked Andrew & to go to Mr. D.T. - way yard

2- That H could continue to work for them for a year more - maybe permits. - Fred really bitter when found out H was really going to school.

(iv) Amy's Process - material written in 1935.

Mutual friend - Steve

Report on process written for Fred in summer 35 during July strike.

Amy's Alcohol - Amy was naive for powers to deny Amy's Alcohol.

Steve must have asked H about it at one time

Fred gave H list of things he was interested in. Among them:

- 1- A firm around Lancaster that made simulated leather goods
- 2- Amy's process
- 3- Medical info

6-78

Lanolin

① Arthur Coltman - Coltmans & Gold family friends. How was supposed to study medicine but went into bus himself, & E. Phils making hard rubber products.

Arthur went to med school, Hahnemann med school, grad with honors, now in practice near H's home. N

Nothing further on Lanolin process. This occurred when Arthur was a senior at La Salle. 36-38 period - maybe even 1940.

H probably told to keep his eyes open for anything of a medical nature.

When Russ visited H in Oct 49, he wanted to know from H if he knew of any cure for cancer & said "This would be more imp than anything you ever did." H said he knew of none, and doubted if one existed.

6-18-50

③ Continuous soap making process
used to ropes. Advantages were:

- 1 - Much decreased amt of equip &
floor space necessary to operate
- 2 - Saving in raw materials due
to fact that saponification was
complete with no excess
raw material
- 3 - Glycerol by prod of soap making
could be separated & used as
much higher quality (Lysol grade
& better) than older process.

This is an exper plant built for
ropes - (L. E. Refining Co - Inc.
Clayton)

Block had been given this assignment
& had reported it to Savets. Block gave
H assignment of checking reference

This sheet is instruction from
Block to H

He's handwriting on page was
looking up some of the material for H

Step 29

⑤

Work to be done on blue gas

"Next meeting April 30" refers to next meeting between H & Fred (p. 38)

Dates refer to:

- 1 - Date on which meet with Smith
- or 2 - " for actual completion of this work

This plant was never operated.

This is what first got H interested in thorough depressions

⑥ Phila Young Ford News

- 1 - Request from either Steve or Fred to get them a list of journals about Navy affairs - particularly what type of articles are published - who can subscribe -
- 2 - Obtain names of reputable Navy architects for legit work

② The Military Engineer.

About 1937. Got the info from Public Library for either Star or Trail.

They wanted to place orders,
& check on what was happening there.

Brothman.
New Yorker Hotel Meeting

He spent whole night with Abram New Yorker. He rented the room, & they completed Brothman's report on Brand-S. Worked till 6 A.M. - Abr typing on his portable. - He checking. Abr went into ^{to hotel room} ~~the~~ morning & returned about 5 P.M. & gave He more material completed report. That evening He turned the ship over to Sam. Kate Marcher. Very early April 1942.

May 1942 and none Henry Greenberg or Frank Keisler. Maybe even Harry Gold.
Jones or a Thurst.

He was getting Carbon copy of this stuff. Press subjects because it was for 12 weeks.

Lincoln Hotel meeting

Jan 1943 to end of Jan 1943

H doesn't know what name is
used - Kessler, Gold, Greenberg
Jan 1943 seems best bet.

Commodore Hotel

Sometime in '42, Abr working for
Chemurgy. Abr supposed to work on
something like magnesium powder.

H registered as Commodore & nothing
was done, H waited all day - Abr
came once & told of his troubles with
Banche. Fruitless done.

Purpose of card - Developers -
sample of chem for Kodachrome.

Have address - while at Rochester -
middle of 41 - at Rochester -

doesn't know who wrote it down
not any questions asked - supposedly
a letter drop.

Can't recall whether he sent the
samples - maybe did. - May even
have a letter to that address

5032 Boulevard Street

58-59 - Gathered this material for Dr. Reich
for CO₂ recovery at Penn Sugar.

63 - 4716 "D" St. - Clarence ("Mike")
Hunt. Worked for Penn Alcohol Co.
Philadelphia address

Bill Angus - VIP at Penn Sugar-
Traffic Supr. always pointed up
to Mike as a success.

Phone was in Angus' name

Mich 3-0761 used to be Clarence
Hunt (Angus) phone number

69 -

1 - Pope employee
Zeyher Supply Co. -

2 - Bring card out.

3 - Used to buy a lot at Womansden

4 - Mr. Brewer. Shoen (Sy) Sulher-
stein worked in lab, but had
polly. H took him to Brewer.

Bryngard Brewer's office near Elmhurst
Lab of ABE.

Hann - (look at card)

5- Supplier of ABA Labs.
(215800)

6- Republic Filters. Had to do with
an idea Tom Block had for
pumpjig (removing bacteria from)
various solutions. This firm
supp. equipment for this. On
case of Tom & Harry ever went
into business. Maybe got the
card as one of the Chem. shows.
H. proposed the idea to Brothman
but nothing ever came of it.

7- Leick. H. bought outshoes
& laboratory tubing from them.
Tubing for Pearl Seyer.

8- Did business at Brothman's.
a Mr. Seyer, old Bill Seyer -
may know a lot about
Block. Block was a customer
of Seyer.

Robbs is salesman for Seyer -

9- Bury card out.

10- Oberweis

11- Lenong - Howard Walthe
no significance.

12 - May be phone number of a
South Philadelphia School Chem

61 - Address where H's uncle
used to live. S. Omenski

65 - Montan way sample. Vehicle
at P.S.H. N & Block interested
in it. Wanted to interest
Eddie Quick in it on mfg
of gold leaf.
Byron & maybe Phil's reference

68 - May have picked up at Chem
Show Grand Central Palace
N.Y. Exposition of Chemical
Industries.

(Cold Christmas Card List)

9 - Mr. Meyers - called H some
months ago when Meyers is

Philo. Great Myers Clinic Hosp.
Shelby, W. Va. wanted to know;
a checkup for hosp.

One of Myers relatives was an
intern at P.G.H. gave Myers
H name & phone number

8- Q.M. Dept, Philo. Joe gave H
the names re a Civil Service job.
H never applied

64- Merio Rabacchi - Dr. - worked
with H at P.G.H. No connection

29-8

Joe Aylward - Classmate at Xavier

Bill Connelly - Classmate

Coles de Courcy, Jr. - Classmate
H tutored this man

Dan Gussick - Old school chum
in Philo.
(Called Danny the Goose)

John Raven - used to work in
Penn Sugar - now drives a
truck

Vera Kane - used to be friend of
Blech & Heller. She is a
lawyer

Ed (Izzy) Lieberman
2530 S) Monmouth St. - School Chum

Al Splan - School Chum

Fanny Sill - friend of Sara Oken -
toofed her out once with
Gina

Dr. C. F. Wheeler - (PhD) Proff English
at Xavier

↓
Vera Kane - Tom & H discussed
blue printing with her before Paul
Smith came along. Vera may have
known someone at Antony. She
comes from around Utica, N.Y.
H. last touch with her around '36 -
hasn't seen her since.

✓ Block was friend of her - so was Fred
Heller. She didn't care for Heller.

Véronica Kane - may have dropped all
connections with any radical movement.
Except where family disputes

✓ 1st saw her in Sept 1933, in Leominster
Hallway just as time H. left Holbrook.
Saw her again in 1934, & once or
twice in '35. Vera was essentially
an Anti-Fascist - maybe not Chamber

Green Valley
8th-9th St.

Vera knew in 1935 that Bloch was
turning over info to Soviets. Question
of H turning over came up. At Vera's
age with in mind with Bloch that
this matter was discussed.

✓ Maybe thru her that Bloch met
someone in Amtorg.

Business like discussion concerned
how H could get blue printing done
(Pen Sign) without anyone finding
out - Hudson Blue Printing Co. for sale
down town. H was eager at
that time for 2 reasons.

- 1- Sympathy for Bloch
- 2- Desire to help S.O.

✓ (Ernie Segerman knew her thru
Bloch. He still thinks Ernie O.K.)

✓ (H says his reluctance to tell
about Vera was fear she might
lose her job.)

H tried to get in touch with her
before he went to Moscow.

He took Sam & H to see "Working
for Lefty"

✓ He didn't know how Tom met
her, but Tom knew her a year
before H. Maybe thru Ernie
Segerman or Fred Heller
prob. due to some interest in
Liberal Movement.

H has asked Sam many times
as to whether he has seen Vera.
Sam very evasive.

She is prob around Sam's age.

She may have lived in Chelsea
for Carters Hotel on 23rd. Some time
was not made in her apartment.

She did not know they were
making it. Sam once told
H, after H started to see P. S.
not to talk to Vera about it. -
Don't let on you're seeing anyone.

Letter from Doc May 24, 1946

Alvin Crankshaw - Doc's boss

Block's evasiveness regard to Prothman.
Tom was really about having Tom
around - might get used.

Hermon Peibles - P.S. employee. Went to
P.S. New York Office.

Clarence (Mike) Hunt, Doc
borrowed a car from him, to put on
front that Doc had a car in order
to get job. Hunt used to work for P.S.

Pat's Pat Carey's Saloon, Grand

Hangout for Penn Sulzer gang

Finest Helming (Cockey) P.S. employee

Canarius - Helped Mc Gaber with
come in distilling prohibition at St
Joseph's Cockey.

#14 Doc wanted to get over to Canarius.

1 - Flare Diffusion

2 - Removing bacteria from
small slurry

"How about Lou?" Louie Block.

I had told Doc that Block just didn't
want to pay into things. # trying to
come up for Block.

Re Blackman

Visited by Rabinowitz, Red Cross rep
of USSR.

Tom had told H. that one of the
"brothers" was up to see him.

Re Brothman

Sidney Kirkpatrick - Editor of Chem &
Metallurgical Engineering. Now called
Chem Engineering. Brothman published
most of his stuff in Chem Met. This
outfit (L. Kirk) once mentioned that
H. Reich might put dough into A.B.A.
Broth told this story to H. Reich
was running own firm at that time.

Broth also mentions a Mr. Truebeck
at US ^{Indust} ~~Indust~~ who formerly was partner
owner of Francis Amereson Chem
Works. Broth in 1929. Later super
of plant. However later bought him
out entirely.

Most of info Kasey got for Paul &
Stear was from Francis Amereson.
H. never at plant. This came about
thru efforts of a man called Charles
O. Brown, who writes a column
in Indust & Engineering Chemistry.

Abe knew Brown. Brown talked to
Truebeck.

NY tel - June 19, - 8:06 p.m.

Used to ask H to use his influence with Soviets to get leg. pros for Abe.

(Abe's material in mind)

Abe told H that he used to be roomie type up stuff for Naom.

① Abe said he had given John a lot of info about this super turbine engine at Houdin, B. & Co. after dinner?

Abe told H shortly after meet. that lot of work had been done with John. H didn't go too well with Helen said pros would be better with Harry, a chemist &.

1. Abe knew H was Soviet agent, & knew he succeeded Helen.

1st 3 or 4 meets they had.

Hotel N.Y. Meeting - Ward-Lewis 42

7/ Abe told about troubles at Columbia. Concerned people who should be paid back - rats, people who had sworn against S.U. Both said someone had turned over a lead of Y.C.L. to Dean in return for being admitted.

to Med School. But his name on
list. Abe said he threw the
rest down the stairs. H then
told ~~him~~ Abe about a loose
finger as Wright Hall (ditto
only one name Smiley)

H said this man had accepted
money from SV to put him thru
M.D.T. H later got in touch with
him & he denied all knowledge &
threatened to turn him in. Smiley
wouldn't give info to us.

Very early in acquaintance Abe
told H that he was so glad
to see him since he could again
begin funneling info for SV.
Abe was the only true fight
against Communism.

H still expected to get H info on
powder plant designed for Atlas
Boulder Plant. This occurred about
third week in Dec 1944. H waited
for him at Piedmont, near 50th
or 51st St, across from Lower Theatre.
Maybe 2 or 3 Dec - Work day.

H was to give info to Sam for
subway station platform at West
4th & Washington Sq. Abe didn't
show up. H took cab & got
there late. H saw Sam who
had just gotten on sub. H stayed
in meat store & rode to 14th St.
Sam was waiting for H on platform.

Sam left briefly at 14³⁰ H. to see someone who was supposed to pick up the prints & have them returned.

I was excited but Sam took time to Ferris wheel for drinks & lunch.

Right after this Abe started proving Burma - 3. minimal.

On New Years Day 1947, I waited around Dey Street 1-2 hours to have collected story from Brother on Burma. When Abe did show up they drove up town & Abe dropped H off near Glenn Station. I later found out from Abe that Abe had just begun to work on Burma - 3.

(v) Powder plant was volunteered by Broth as a result of Sam's request with earlier fragments ^{of same design} which Abe had tried to submit. Powder Plant may have been in Chattanooga.

I told Abe about incident when I had large roll of prints copied in matter of couple of hours. These prints pertained to butyl alcohol.

Abe used to take legit work home from Hendrick to have Naomi help on it - typing, photo, etc.

I told Abe he was being pressed for info from S.U. to get info, and Abe should elaborate on fragments. There were parts of equip.
1- 4 large bags for reaction vessel

- 2- Stuffed box design for Penthouse
- 3- Synthetic design for Penthouse

He gave Abe glowing verbal report on work Penna-S report was receiving by "real" S.U. or "other side". This was month or six weeks later.

(When I was going for Army Physical, told Abe he was going to Calif, & would be contacted by someone else.

told Abe Penna-S why will need key Engineers on other side, or S.U., & would be immediately put to use there is work to complete.

Meeting in General's following year:
1- They got Abe to do further work on Synthetic rubber, perf-
erabery tools Abe got to work for
big rubber co., or go to work for
some big firm.

2- Building his leg & desire
to do work for S.U. by having him
meet a recently arrived & "impl
Official".

3- To work him for the work he
had done on the Penna-S & the
mining equipment.

(Broth was told that Sam seen the
material or knew of it.

Sam made a slip & called H

"Harry" initially of Frank. Wine served in
room

Later when H went to work for Abe,
Abe said he had suspicion that Frank
wasn't the only name that H used, & Abe
pointed out incident in Lincoln.

When H met Muller at Belle Meade
H used name Harry Jacob, brother
was present

One night H told Abe he was going to
work for him. H said he had to
clear up one thing, matter of his
name which he thought was
H G or F K. Occurred in office on
33rd St. Jersey May 46. Abe said
he thought it was F K. H told
him he guessed wrong.

While Abe at Chemung - late 43
or early 44, Abe asked H if he
knew anyone at Amberg who could
get him work. H said knowing boy
would make inquiries. ^{He said} Abe's
idea was to get an organization
around him so under A.B.A. would
become. Hoped it would be Sov-
sympathizers & good engineers. Small
org. devoted to work of developing
plants & process for S.V. with very
little profit for Abe. This was to
be process design work.

after Abr established A.B.H. & began
H started to work for Abr - Aug 44
+ Oct 45 Abr approached H three
or twice on getting Abr on line

(10) Abr once asked H "How is John?"
H said "Fine" but didn't know who
John was.
Abr said he was able to get along
better with John than with Helen

Abe Roth -

Some weeks after meet in Lincoln, H met Art Weber for first time. Abe introduced H as Frank. Artie said "I shake the hand that shook the hand of...". Believing Abe had told Art that Abe had met Semenov. Artie knew relationship between Harry & Abe.

H later asked Abe if he had told Weber about Semenov. Abe said no. Weber never knew H's real name.

29-19 Poughkeepsie - appeared in Chem & met May 1945. Prob. given to H before he went to work with Abe. Not part of mixing material which was given to Sam.

29-15 Mixing data - Part of material Abe wrote on mixing. Not submitted because.

Most likely → 1 - Later submitted the other material on mixing, late 1942.
or 2 - This is material Abe got subsequent to late 1942, & not submitted because Sam already had it.
or 3 - They have gotten it while at Abe's.

Some of Abe's handwriting in this material.

29-7

Blue prints with cover letter from Graner Tank.

All material was for Ruffert Chem Co.

Given to H by Abe before H started to work for Abe; sometime in 1944 for submission to S.C. & H never did anything about it because

- 1 - John not interested
- or 2 - Of no use as it stood without description of process it was designed for

Aerosol blue prints - refer to field filling device for aerosol bombs

Given to H by Abe to submit to S.C. - H never turned over for above reasons

29-17

Aerosol memo -

That is same - different drafts. Yellow sheets all Abe's drawing & printing.

This is material, most or all of which was typed up by June. All pertains to aerosol

dispensers. Contains 3 drawings executed
by Lib. Submitted to H with idea
it would be turned over to S.U.
Written material is essentially for
Aches Wards. It will be noted
that on page 1 of 2 introductory

(21) Notes from the Gallows -
Also from Brodsky.
H may have told Prod that
he was engaged in industry
esp in 1936.

Brodsky
Also told Prod he was filling
questionnaire by FBI. either 3-18
or 5-19. Met him outside
main gate of P. G. H. - Went
to Hodatone Hall. H brought
note book. H told Prod something
in his feet but come up. - Very good

(35) Koff worked as shop.

Brodsky wanted money. - they had a series of meetings, by H. had given him only, what was 15-20 \$ for general fund drive.

At Brodsky's request H. introduced Brod to Steve Schwartz in about 1937 at New York or Phila.

Brod was a student at Sheryl Feb 34 - Jan 36

Joe might know people who could supply info, & recruits. Joe thought he would be valuable in getting recruits.

Joe had about 2 meetings with Steve, but said nothing came of it.

Joe introduced H. to the man who lived around 20th or 22nd & Lehigh Ave. late 36 or early 37. Joe & H. went to this guy's apt. Worked for Gimble Bros. Bureau of Standards. Testing org. to set standards for Gimble merchandise. This guy had kept in a marvelous new fibre or fabric far superior. This guy's wife was a machine teacher - 3.9th grade, dark hair, brown eyes, long nose, no children. This guy wanted to go to SV to work. ^{Paul Cooper, maybe a bit later} reported this to Paul Smith. Paul said note

Even in Drexel, Fred was open Communist
trying to convert students.

From 36 on - ~~middle~~ ^{late} of 36 H told Joe
about indus esp. Joe was extremely
interested, though it was good idea.

Joe was continually getting H
to join the CP & finally to get Joe
of his neck. H told him he
has say this work, no further
discussion at this time.

H introduced Joe to Swartz in 37,
early fall.

H gave quite a few biographies of
Joe - Swartz had asked for bio, &
H also asked lots of questions.
^{Some 3-4 months after H mentioned Joe}
^{to Swartz}

Joe lived in Strawberry Meadows
West of Phils, - later in Wykefield
Wykefield. H doesn't know
where Joe lives now.

Joe had H's phone number.

H introduced Black to Joe. Told
Joe that Black was doing some
things as H - they in fall of 36.
Joe took a dim view of
H telling Joe re some
activities.

In ^{mid} 1936 Profsky had key made
for H for Mr. Reich's file, from
Wax impression of the key & pencil
outline of notes. This was how H

used to get into Sachs office. Key was
once left for H. H. got in touch with
Brook for this purpose. This may be why
H. told Joe about his indoor esp.

A week or two before Brook had Key
made

Believes Joe had no further contact
with Joe Key.

7 A & C T
Belief the esp.

Joe in Army in Puerto Rico during
war.

Joe gave names to H. & H. turned
them in to Swartz. I suppose Key names
& background
Tom Jackson worked for Baltimore.
Lived in Phil. & was engineer
or draftsman 7 A & C T. Tallest
amateur

None prob. given before H. entered
Joe to Swartz.

No work by Joe for H. other than
Key.

They meet in main branch
of library, in periodical room
cupboards.

Brook is married, two children,
wife ill & neuritic. never met
wife.

Steve never mentioned Joe to H after
first meet. H can recall if he
ever asked Steve about Joe.

Joe asked H on many occasions
if he was still connected
with Sov esp. Probably up to 44,
H gave Joe to understand that he
was.

~~H has since told Joe that he had
contact.~~

'Are you still working with the backing,
our friends,
those people?'

In Summer of 48 H looking
for work, Joe asked H if he was
safe. Joe prob. referring to Bentley
disclosures.

Re: that a scandal Kaler was - trouble with Calvinism. - he began it not here. G. asked Dr. for show of hands (Healing). - self - and. came to show stakeholders meeting - I didn't tell his meeting had been held & Dr. was out.

Walter had spoken in meeting - went to Dr. for help - for. had taken Dr's advice & pulled it under his name - the list ceiling - Walter had wanted a display - under to make

About a week later went to meeting - 4 weeks right to head - Dr. ref. - 14. and. didn't make any diff - Walter had already done it.

Re: future - seemed to G. that one of the males for Healing - K. wanted for Calvinism. Walter finally was wanted for Healing. Bona 5? 6? Vago - this was for Healing.

Meeting - mostly fully furnished -

~~Good~~ Arranged each time, with
alt. meeting place for -
would it tell us?

① One meeting - along 5th Ave. under
Central Park - in 90's. Out with
Wall Street & the other side
somewhere else to go - usually with
meeting same day. This part, mostly
in 10th & 11th St. every a little
up & down on 5th Ave.

② One meeting, with John & friends
Dinner -

③ Some John, fully 5 - said many of
"our people like in D. H. L. G."

Intend. by Fred to #3 -

Went to see Fred Sat. of Brown
in N.Y. - date 37 or 38 - Fred +
Hunt to restaurant where D. Day - chair
out - Fred while H to wait - H did
must have made a phone call - came
back - 5 min later #3 came up in
restaurant - Fred had told H to
make the form of recognition. Fred
down - unit feeling well - normally
looked like H. Fred said H was
going to work with him. Fred
said he was being better in unit
feeling well. H. told H that of
the same Fred told H about #3
was that much was getting out of
Brown. Sugar, so Fred was in to
#3 - tough guy.

#3 told him about being close
to her. May have been the other who
told H to touch her - looked
like a bad customer - a wild man -
Peter Lane type although interestingly
P.L. at all. - Fred had only story added
to her from Brown Sugar.

#3 - told him to work - one
told him to put it between balls
of mandarin. If possible - told to use
plain brown paper. Valid
surf mandarin

But mostly in late summer, you
before Xavier - met him - train going
to N.Y. to meet #3 - was
on train - came from Wash H. H.
#3 almost paid together to date -

States he'd talk to #3 & he
had killed - got going & under-
standing the train. He saw him
wait alone - put him - seats
the next back - gave him
eyes - but he didn't like it.

In N.Y. #3 a home out from
with - #3 at 11:30. Put #3
1/2 car. He went to look it. He
wanted to look it home he wanted
to go to Xavier. Blamed at H -
pretended to snort the train inside
3rd. He had other right to talk about
what H. had fact. Took place - was
was French type coat. - H. looking
for it - saw many this type coat.
#3 was on road about H. going to
Cincinnati or H. right he would be.

#3 didn't say anything about
anything on the future, but he always
thought he could be, because he
was always #3 was getting fed
up with H.

#3 offered H. money - \$50
on one occasion - H. was
not about at the moment - family
must not didn't have time
from - did. Next meeting #3
was inquiring about H. should
consider - and they had it on
mind that he had refused. Told
him that expense was very much
less than he had asked for &
was much less.

-5-

From all contacts - they
all gave H. the information that they
all knew H.

Yakilen -

Saw one that but might be bad - can't recall what gave this impression. Very characteristic of John to lean back and toward Harry - (same as L. A. D. picture - carriage of head very good too)

Manner of speaking, like - showing teeth - as in photo on cover.

Walked in bar - one drink - as well as at the staying behind & having 2nd & 3rd drink - still recall he was as stayed behind - emphasized this double of 7 min - John drank whiskey - usually superior brand - near barbon - never is out on main fl. bar - only pick up one John drink also whiskey & chased it with 9 ounce of or seltzer.

John told him now to meet in midtown Man - Blum - Did not like Dr - liked Blumstein & Queen.

First meeting - given in lounge early that Dr - at a certain hour. Meeting usually later - some 30 min - 5 min after. Then go directly to place where meet takes place - make sure not being followed. (9 + 5).

Don - he of family - meeting place was Capitalist next to Bulfinch, a side of Tex. on road 50th St. - Rochester can walk - Don - met him at 2 + 4 cigar store - bl. down - under rain - the 3rd day had better else else of Don.

On one occasion there were two
druggists.

① On one day Al came to N.Y. -
met H. and found out that
H. didn't like it. him to leave -
off and all over of this. a

② On another occasion Al came
to Phila - met at No. Phila
Sta - he went out on in
Frankford. - William Best -
at end of Frankford St.

Stayed at Parker Hotel - 41 or
42 - may have used our name.

In fall of 42 Al sent to Tenn. -
wife still at Rochester - H. told
he made one visit - to Sam -
filled in info - Al sent there -
He had gone Tennessee Eastern at
Knoxport - cellulose products plant -
then to Holston Ordnance - part of a

Bl. had red hair - in J.C.
much like this one of - grabbed
to Bl. - to enter extent - grabbed
to Bl. in house H got in mail. Or one
time had done to help he don't think
to get some out of window. start.

In late '35 (may) - Bl. asked H. to
Paul Smith - only danger in
the city. In N.Y. - don't
recall how Bl. getting to go if the

about moved. Smith told H.
not to see Bl. by any of his under
P's intro. As we occur they didn't
stay home were very good friends.
State of '37 - Bl. was injured in an
auto explosion - severely injured -
Rough N.Y. - used to see him in
hosp. - was coming for Fred &
him. When H. told Fred that
Bl. had been hurt & would need
to be out is, the crowd in of
good. Not so well he was
getting in touch with Black - all
but has been against the order.

Black never spoke about the people
with whom he was working and
friendly - tall, with people who
had the kind of a friendly

1946 or so - 41 or so - friendly &
gently in touch.

Bl. last contact for some time
Harry. H. Davis from what Bl.
did give the Russian as an enemy
in 1940.

Bl. also, for a descent. Bl. gave,
he knew Davis.

Bl. might have been doubled in
large extent after 1937 and what
time he met the one of
Whittaker Chambers. Bl. said he had

" " in comm. with
and much for Soviet & W.C. had
found in info over to any others.
After that he was in the Air
and recall Black.

Bl. when to get blueprints & done of material -
much of money and - Bl. was getting
money - definitely - besides - in bulk
or in other. This Bl. was a member
C.P. - then C.P. shot the Runner got in
touch with him - Bl. & H. met a
C.P. meeting in Jersey City - Bl. trying
to get H. to join it. - while at Holland
1933 (Jan - Feb 1933 - Sept 1933) - About
time of book Holiday & after Emile Schaeffer

Re - Detroit. Encl. - Bl. argued along with
Louis Harrison. - H. thinks that the matter
has been covered before Smith (or Bl.)
but H. doubts it - thinks Smith
organized the whole thing. - Bl. has got
in touch with Smith - late 34 or early 35.
Bl. was working for Nat'l. Oil Products Co.

& late '35 - H. met P.S. - Louis would
have Bl. advised to H. about Georgia
N.Y. met man Penn Sta - would
down 7th Ave. and Bl. stayed in Paul

Bl. left the 2 to P.S. and the Soviet Union - which is being taken on solvent & part. a process which is being put into the subject of absolute ethyl alcohol (Bl. must have told P.S. that it is done & end in power). P.S. asked him to submit a written summary of what it was. P.S. set time for the next meeting - in Manhattan - all 5th Avenue 14 Jan. The meeting - some weeks later in N.Y. - Paul & P.S. gave an idea of some sort of meeting - one which was considered, etc. - regard toward with P.S. - even more "related" by the idea of being able to do something to help these people (Russians). At any rate, P.S. wanted the give him money for travel fare - refused by H. but used an excuse - later it was under control it. The meeting was held, 1935.

Later Paul & H. talk from Paul - he wants you to pay H. - H. tried to pay for the travel - ref. - H. tried to pay for his own travel - ref. H. on night work & going to school night to 12-5 AM - then work during the day - until 6/36 when H. quit - meeting took place at dry bar.

There was a meeting in Phila. - not invitation of P.S. to have the travel fare. - was distributed in London Phila - H. said of dumping into Reich. - met him and 15 & 16th St. - single 7000 Phila.

at 1st meeting told H to
 send B. H. told him to put it in
 P. S. it was but that the 3 should
 not

Don't tell P. S. Professor Bl. came in
 summer - Fall of 36, in - should
 have, P. S. brought the 3 of them
 together - K. Y. - at the dinner.
 at the time, P. asked if he could
 pay, the to buy something, for H
 to give to her, full or small P. S.
 said "He like to give small present of such
 a nature - it helps to establish a cordial
 relationship"

#

2nd meeting - P. Y. - He gave P. S. a list
 of various processes (acetic, benzene, etc.)
 used by the Germans - Amer. Chem. Works,
 Kaldstad, N.J. (suburb) - list to study of
 solvents, such as diethyl oxalate,
 amyl acetate, butyl acetate, ethyl
 chloride (found in acetone) & in addition
 the possibility of obtaining benzene from
 butanol to cut down cost of motor
 fuel in Russia - (but ethyl acetate to
 be obtained with motor fuel).

#

3rd meeting - P. S. made up & all
 H had to go on to study P. S. in -
 P. S. at next meeting, called him still
 phoned in with of a few hours.

Call Joe - find out if he has been

4th meeting - info re. school alc. process - women
appreciated but Paul kept thanking him for it
in meetings to come. Paul in 6th Ave. met
him for lunch - day time - quiet - built a
man of material - very blue prints - had to
have them look - got the book w/ 3 or 4 hours -
had 1st meeting, saw day number and Col. L.
birds

Met Paul once a week - every 6 weeks -
" " about 8 or 7 times - from latter '55
to about early '57 - then along. Paul
stuffed the Paul about 25 times (maybe only 4).
3 or 4 times visited - paying debt - refused

Saw Bl. 2 times while H. and Paul. One
in Paul's presence, one w/o Paul.

Bl. with Moyer from 1953 to 1955 - 1958. - during
this time the world he provided a whole
year w/o seeing him. Bl. by the way knew
everything that H. was doing. On occasion
Bl. would ask H. when he was meeting - H.
would give flying lesson. Bl. gave H. very

- 2 -

little about what Bl was doing. On
the day they agreed on - some in later birth
would, at least someone would make
a slip.

From 1937 - 44 - Bl didn't give any info
re: what Bl was doing - was constantly
being told with them - for many
years that the R's would look
Bl up.

In 1958 - Bl. showed H. Chalk name in rain
May (and later 14 Hilda) & ad. Ch. from
Bl. by his name & said he would meet
Bl. with the R's.

Bl & G. talked quite a bit about starting a
small clean up or or laboratory - did
the for and 1938 (only) or of what the
had.

From 1937 to 1946 (left Br.). - Used Bl. as
an alias for family for leaving Bl. (C
see in Br. G. - Bl. was very proud - close family
called. And then H. told Bl. & told
him that they called just the way H.
stepped out. Bl. from only H. were

using him as an alibi.

B.L. may have let drop to H. sometime in early '44 that the R's were interested in Jewett and B.L. was trying to get Jewett. H. does not know whether or not it is at Napco.

B.L. was his chemist - one of CP's at Napco (Barton) and passed to B.L. - so many people were given of B.L. because of his ability. Had bunch of working on father's info. on early mistake. When B.L. left (a list) they really covered the house on him and covered him. H. doesn't know the real reason why he was covered - about 43 or 44. Someone else had made it after that B.L. had moved of some kind.

He did exactly what he was told to do. went with John W. Berg Co, Phila. Any contacts with " was lost this time down for several weeks - but then he came down from the, but still was not on any salary, but only 50c

portion of profile of work he does. Still
still over most have influence at time, but
don't put full time in at Berg.

H. intended Bl. to Berg in late '45. H.
once advised in the future, a Berg adv. in
future. - It was done - long talked -
H. got idea a good deal more wind, but
thought it was good set of, or mentioned
Bl. to him. Got along pretty well at
first, and after that not too well - Berg
in old man - had heart.

Bl. commented - much to show from
a long time - stay in in hotel -
finally moved down - end Berg -
maybe about '47.

Like Bl. had a off in space to when
Bl. lived while H. visited once a time.

told H - to find out he was did work like
HAT - contact. working at P.O.H. and don't
try to find out it.

think Bl. was killed in far more
rough fashion than H. - like P's falling
in to the money to help for a
living in mid-air - and one factor -
may had exposed self quite often. This
Bl. got away & disappeared long before 17.

Bl. did not feel at all at ease after leaving
P's.

This time Bl. did not see H. & Sam
any together.

Bl.'s act. may SWP was by accident
with SWP's in Munich - as one of them.

From this time on some Defense Panel (re:
Bl.) + he with Antony. This Bl. only
see Paul or H. when he. Bl. may have
known the Antony better by correct full
name.

Bl. was had many friends - probably
disliked them.

On the 2nd called H up - L O - with
night - and a above meeting, to
that night & meet in Bx - was -
met - only they agreed was that he
wanted to have the p. out of him
for coming to go to Cincinnati. Met
about 11 - got home at 8 P. Had
called about 8.

One of the things H, and P. was
Reid's Co. winning power. - H killed
under on it - but he didn't tell P's -
he had worked on it.

Bl. - Bloomsbury Pa. - a boy - father was
part 15y. till at Bl. State Tender -
mother died when Bl. very young - father
remarried - Bl. couldn't get along with
her - Bl. went to Penn State - father
died while there - still sleep with
dead man. Bl. only child. May
have aunt.

that Bl. went to Pittsburgh for some
on a father trip and 1940 - didn't
meet who he was supposed to - just

spent a lot of money. Must have
come up when B. & W. were capt. but
always being broke because of the business.

I like you, ~~tho~~ (40's) they tried
to use B. in biology in formula,
etc. B. mentioned a hazardous
visit to Univ. of Penn. had heard to
get a biology int. ^(might have been in camp with Smith?) - where had told
B. off about the possible contact at
Univ. of Penn. was wrong, because
he contacted some types who wanted to
call the center - ~~was~~ ^{the} about
1941-42 - that is near P. and the
A's killed B. pretty roughly.

On one occasion B. ¹ got let being
planned in position of promising money under
instr. (on one occasion P's told him to
offer any sum at all) of P's and he
would not contact him for a long year,
I then saw contact was somewhere else
in the - or may be been in period of
30's, & other in 40's. He actually paid
out of his own pocket.

Mr. J. B. Miller

Level + in BL indicated a beam
of wood with R's - slats, with the
S. P. Bureau + carting right on off.

After H had been 7' d in by KBT +
C. J. - had long since not BL. after C. J. -
BL. laughed - ~~remembered~~ ~~ad~~ ~~what~~ if they
had been long H. had been with the
Soviet - sitting in bed - Frankfurt +
told with BL. - H. worried about
family finding out (saw of home by
Pela Greta). Saw BL. suddenly
to discuss the matter with him - BL.
living on Philadelphia at that time. BL. at
that time had been 14 but had been told
with some more only '46. BL. seemed
to think that H. should not try + get
in touch with the R's, because H. would
be found out and "that would be just the
sort of thing they would want." BL.
never asked H. if his name had been
mentioned by H. - it was never in their
mutually understood that they would.

On one occasion H. + BL. exchanged
words with a thin web. R. contacts -
came to call. both were seeing Sam -
14 year old. saw Sam + BL. at that

was not sure of his K. color - but
by description slightly same man.

H. still got friendly. Bl. had only had
an contact with a woman - on the
Russian side - Bl. does not know
Chig. Bachy - H. asked her about that
since G. J. H. got info. for Bl. that
woman was not a sing, but was a full
pledged chelon. Bl. went to looking
about looking with a woman. H. has
info. that woman is mature. How
the woman about early 40's.

#

Bl. used to go down to Seaford, Delaware
(where I was) & down rd. New Castle, Del) -
H. to get info - made quite a few
trips down there - middle to latter part of
1940.

#

H. that nearly all living Bl. made
was in N. Y.

#

Very late in Bl's case, with Russians, in 1944
he went to Chi. under very difficult conditions
he had no money. 2 tickets - one by coal, one by bus -
and this was for K. atom.

Bl. horn of H's tail was (Kurl) -
found it was SW and he it was
something big & he it was a cow.

Dr. J. P. Clark, U.S. lab - 1st week of vacation - Bentley
Bill to help off it.

Did not give the magnesium glove and
assess about being a.

Did get ^{from} Brochman "Buna S" process which Bill
get for Hendrick - Dr. sd. it was mostly
his own work (design). Hendrick was making
the equipment, etc for making it, so process was
not Hendrick's - H. had Standard Oil was
owner of process.

He spoke a lot about Bentley - not too
much about Golov

Soviet are not interested in G. one to left

Hendricks - Soc. evn told H. to try & provide Br. suit to leave Hendrick
H. may have given Br. \$20 & \$50 out of our pocket. Br. too much an owner at
Cheney.

B-G, Patterson - when Br. sent
H. to make a survey - observed where
had been an old brewery.

Bona S. - Sam wanted Br. to go with
someone like U.S. Rubber - saying to do
with Bona S. -

Br. gave Bona S. to H. - 8th Ave & 34th
near N. York Hotel. Gave to Sam near
6th Ave & 23rd St. - 2/0-3/42. - middle
deck - at night.

Jensen's - on fire - Br. lost - religious

Exchange - send train

Anged money believed - then gave
it up - then set day and told Br. he

would get there during the evening & call
him. He stated calling for Philly.

When B. left Hendrix, he told H. to keep
off B. & to get job big income from the
Steel Corp, Goodys, U.S. Rubber. - He
would get it if under with under of
magnesium powder, about bomb or DDT.

None of the others at B. had anything to do
with this business.

B. then went down H.S. and more with
H. went to work for him to make Kasele -
used H.S. send him with for tel.
He also B. could reach him.

Due to report on typhoid fever - only reason
Soviet recalled it was because the power
was down & it was Hendrix's stuff.

but a wild

Can't recall why met there except probably
being paid who had contact with him

Chad re: Chattanooga job

H. met to Cincinnati in baggage car - but a card -

Had lunch at H. - H. said that his wife had
to leave suddenly to care for mother of friend -

Might have been a effort on H. part to scare
H. off of Black. H. - long, black hair.

Black man living in a flat in a duplex - near Montgomery, Cal. Had a junky old car. - drove to Holliston and afterwards drove H to RR Sta. - leaving wife at Holliston.

Introduced me Mr. Martin as just Martin.

Here from first Coler - about to ~~Marion~~
Boy of 1947 - day that ~~Sharon~~ - 5' 10" in
3' 1" Hb. H. called Dr. see you -
effort - he was always busy. (at
office) H. on way to library - stopped
by office - one of office boys told Harry -
"Ken Men what's" - H. undressed.
It's mine too. Dr. talks - shaly -
gubbed H - "they know that you in a corner -
- Dr. from what they - push - you
got to cover me up" - from Coler
under man of John - Dr. sh. it must
be that was Hb. - we've got to
rule of shly - I've told this line
you - they would spit out anything -
you have got to know that you are in
"can't it is the way I met you."
On shore of the river - flight of
Carter Handlen who was dead &
rule of shly - Dr. described Coler
- H. and closed on what. 6. when
Sh. & O'Brien 5' 1" in

After consultation - but contact was
lost - check on which left MIT
while Dr. was coming up for lunch.
Sam was on the point of H. to
Boothman - about! Fall & late summer of
1940. - tried to get H. to quit work for
Penn. Leg. & go to school plant, May
Yard, munition plant, etc.

That night Dr. Frost. & H. in lab - Called H. if
he ever knew that Dr. bought him into the
whole thing. - Then Dr. made some
remarks just before H. went before C. J.

Dr. from Sam & met him on train - Sam gave
Dr. a pep talk - saying Dr. would, etc. -
took Sam as a recent arrival (Russian) at
the Lincoln Hotel - Room - right be
low H's room - Harry told on Frank
Kearse - lab 142 - early '43 - a suite.
A good part of the evening, etc. - H. stayed
on to the pp. morning. Dr. was very
much interested & interested, and back some old
ways. Had already given Dana S. from
think about. Sam in prison, the possibility
that he used any other name. But Sam
as a very former visitor for the S. U. & he
wanted to meet Dr. personally - think he
for work done, and would Dr. could.
The whole purpose was to try to get Dr.
to go with a big firm. Dr. went
away with many ideas - that he was going to
do something, legit. matter then give
stuff just to H.

Ben Smily, August Field - by Fred - actor
35-36 during Xmas - contacted Smily trying to
get info - couldn't.

John was sent to see Smily - tried to
"blackmail" - will come when what could
have come from Smily.

Ben Smith.

1938 - was at Xanier - day nicely -
 thinking morning of '38 - just passed
 mid Jan exam - staying late in bed.
 Was at Holendale St in Hartwell -
 living with Mrs. Hys Brooks - daughter
 unmarried - FNU. Had a room -
 let's only brother.

Mrs. B. still. There was a plan call for
 H. - was going to football Xanier -
 Toledo. She often was Brook
 and some friend of yours - and
 she didn't like her name - told
 her Mrs. told me in bed - for
 said "I'll get him out"
 then moved - in Cincinnati - under
 to her where his hotel was -
 found me coming up to see H.

H. had lost his feeling, address, but
 family, got him and Penn
 they knew his address in Cin.
 H. was out on CO. morning from
 Cin. to Rich - Resident Dr. club
 to our factory.

H-

Had letter to get in the - the ad
 was 70 miles in 10 min. (H. 85
 was the town by line) - H.
 at his - the at his - H.
 had on bullet - Mrs. B. had pub
 only X-giving him - I didn't
 and downtown - Cincinnati area -
 well and (lost sound). H.
 had only to my about 1000

had a remarkable present for H.
was high, got about 100 miles
in a fair way, also with
each belly with H, but I fear
it was too late to get in touch with
him. Some of Ben Smith
got his one address - but
lived in Dayton, Ohio. He
had to go and see Smith the
afternoon. He made a point
to meet H. 2 weeks later in Middle
Ohio. Took H. to RR Sta. in
Cub. All H. to say to S. "fly S's old
schedule, then not his regular".
Was too far in S's gift which he had
already bought - small, but
H. and small what it was - and
very valuable. Had given H. the
gift. H. let for instance that he
could go to Toledo.

H. went to 9 am.

2 days later (Sat) went up and saw
Smith - looked up in Tel. Directory -
directly to the house - about 15
miles out for each of Toledo - house
not in one st. but on, up hill
didn't have a driver of S.

Went to home, very hell - didn't make,
hundred - asked Ben arrived - it was
for Ben Smith. He stood there & H.
was forward. He said "oh, yes"
H. asked if he could come in - yes,
so walked in. Delt & the

store bill (cash) then - cut
will send it all. He, at end
of the pretty quickly (about 1/2 hr).
I sent him a note at
Xavier, gave him H.C., then
Star & gave him per gift.

From full of other bills - & at
them that I am a ^{single} ~~double~~
eng at the 1st. 1/2 hr. -
from - would be with Carl Kessle
to in 1/2 hr. I will write to and
M. at the house. Get the well, &
was under way, all the family
not waking.

He got there at 7 - P.P. 12 - at the
all evening & didn't tell what
had said at all. They gave from
Boston, Mass. Had been a student
at MIT & he knew Star there - did
not give Star's last name.

2.1 M. arrived at home & with
wrote to him all about Star, now
to send note on loan. I suggested
to S that he was leaving - S sent
to write to her that go. Had
S. to give him to family - S
own his daughter - stippled can
near little paper. H. sd. he
would be up to see S frequently.
(M. had ~~been~~ asked H. to find
out if S existed to be in East in
near future) H. gave S 51.52
Boston St., Phil. a line with a red

you sent people and I
looked at it and it looked all
in London see.

H. named - but I don't know - but
just about - we did not mention
K. & X.

Went to Middleton, Ohio & held
meeting and had a week's talk
in a Sunday - and went out
to him if you like - it
would be better if the man the night
gay - He said I should be careful
He said just enough - just to what
we say. H. did usually, every
don't let it - and he'll let it
a man, it would cost to see 5.
H. - and we have to go to school to
find to be out - and he'll '9d
and you like to go - to
the end of the line of X, and
staying but you are - and
He C. P. H. and not there -
For we don't have to say that -
in any way they - He really
want's help.

He left all 15 miles for and
found in 14 minutes after the
New Year.

Smith - 2 miles in 39 - he is fully
2 - 40 for to find X. All
at the end of the line - All this,
It can be named

Back from to Dayton - S. in a house
and met, and had - In. and had to
make more nesting with S. from
2 in Middle town. Had - in a
nesting - '39 (1st ^{January} 22) - '39) and also
in - 1940. All other nestings with -
Chickie on a corner near -
Shillito's - in Middle Plaza

I let '39 M. water to him and
H. had seen S. all - Had yes
+ he didn't like to go there.

Q 1940 - on July 2.

Had - out to back - saw in gate house
a very tall, fat - '40" from on
July 1/41 - saw light of Hardy
again - didn't get in touch with
him. Went out to Dayton - had to
look out there - and then one
out to Philo. - he'll give him a little
money.

I let 1 on July 2/41 - in NYC - saw
gave H. 3-4 weeks for sum of about
\$440 - \$200, and, about \$1000 - 720
Petal - also '36 - '37, pretty latter -
plutonic - scaled down. Red'd
\$100 for Feb. - B) Ben of -
out to back. All page of the
